OR Contributions to External Associations

OR places great importance on building a network of business alliances to support business operations that can expand ideas that are beneficial to society and the environment, leading to sustainability in the future. This is in accordance with OR's vision, which is 'Empowering All toward Inclusive Growth' by supporting cooperation with various organizations. The details of each contribution are transparent and accountable. OR actively supports business concepts in two main areas: the Circular Economy and Energy Transition and Low Carbon Society.

OR supports these ideas to promote, support, and implement relevant issues efficiently to achieve sustainability in business and society by pushing for relevant policies, regulations and laws. In this regard, OR personnel are aware of compliance with the law on corruption prevention and anti-corruption laws, which state that giving or accepting bribes to government officials, private sectors, or other relevant persons both within the country and abroad, in order to obtain any benefit to the business operation regardless of the format, is an illegal act. This behavior does not conform to the principles of good corporate governance. OR does not have any activities to support any form of lobbying.

The followings are the top two issues that OR contributed to industry associations

Issue or Topic	Corporate Position	Description of Position / Engagement	Total spend in FY 2022
Circularity Business Model	Support	OR joined with Thai Business Council for Sustainable Development (TBCSD) and Thailand Environment Institute (TEI) to promote the circular business model concept in Thailand. The mission is to accelerate the transition to a sustainable world by making more sustainable businesses in Thailand more successful. There are 3 mains focus programs to drive the mission, e.g. Policy Development in Thailand, Capacity Building with regard to Business Competitiveness and Good Practice and Raising Public Awareness of Cultural and Environmental Issues. This is done through many activities such as Carbon Reduction Certification for Buildings etc. Also, OR supports the Thailand Institute of Packaging and Recycling Management for Sustainable Environment (TIPMSE) for Packaging and Recycling Management for Sustainable Environment. It was established with an aim to promote at-source segregation of used packaging from garbage in order to reduce amount of used packaging in the waste countrywide.	350,000 THB

The followings are the top two issues that OR contributed to industry associations

Issue or Topic	Corporate Position	Description of Position / Engagement	Total spend in FY 2022
Energy Transition and Low Carbon Society	Support	<p>Many countries have started to pay more attention to the global warming issue in that every human being has the rights to life, health, and habitat. Therefore, the Paris Agreement was launched, and its main objective is to limit the global average temperature rise to below 2 degrees Celsius. Thailand has been a member of the Paris Agreement since 2016. This event accelerates the Energy transition and low carbon society concept to align with updated regulation based on the Paris Agreement. OR as a leader in the energy industry of the country. We work with organization with the goal of reducing the emission of greenhouse gasses and to help achieve Energy Transition and Low Carbon Society. We support and being a member of Thai Business Council for Sustainable Development (TBCSD) and Thailand Environment Institute (TEI). TBCSD has been leading projects to contribute and reduce carbon dioxide, such as Carbon Reduction Certification for Buildings, Carbon Reduction Label, and green meeting.</p> <p>OR also gives the importance with global current status. OR's decarbonization task force committee is appointed to oversight the issues related to climate change issues (e.g. carbon neutrality target, net zero target, carbon offset, carbon credit). Vice president is appointed as chairman. This is to ensure that, we have the governance framework for promoting, accelerating, monitoring the development on carbon emission management and public policy engagement with clear accountabilities up to executive level.</p> <p>We have the management system in place for trade association membership to promote the influence on public policy related to climate change leading to Energy Transition and Low Carbon Society. Our position on public policies relating to climate change, which is aligned with the Paris Agreement. We also publish OR 2030 Goal to reduce greenhouse gas emissions 1/3 by 2030. OR has also set a goal to achieve Carbon Neutrality by 2030 and net zero emissions by 2050.</p> <p>We also promote the reporting on Climate policy positions and activities of trade associations throughout our public disclosure. The management system and programs are applied to all jurisdictions where we have operations.</p>	250,000 THB
